

Llanbedr 2017 – Sat 1 April to Sun 9 April

At short notice we have been offered the opportunity of running an early season trip to Llanbedr. It will be limited to the capabilities of one tug, which means around 12 gliders plus a self-launcher or two. We also plan to take the Duo Discus which will be available Monday to Friday and most likely manned by Ryan or me. This will be limited to 2 people per day and will be used to exploit conditions.

It is possible that a K21 could be made available if there is sufficient interest to take one up there.

The costs will be higher than last year. I screwed them down last year and always knew I wouldn't be able to repeat the trick. So I need to cover the cost of renting the airfield and ferrying the Robin to and from Llanbedr.

So for a private glider the cost will be £220 for the week, a self-launcher £270 and to participate in the Duo Discus £20 per day. Probably a little less per day for the K21. For this you will get unlimited use of the airfield and a slot in the big hangar fully rigged for the duration. All other costs will be as for Dunstable, aerotow rates and Duo Discus airtime. These costs will be posted to your account after the trip as per previous years.

For now, I need to know who and what your interest is in order to put a plan together.

Robin May
